

Paula Harrison Photography

Beautiful, natural wedding photography that Captures the atmosphere and emotions of your day...

Info: My approach to wedding photography is informal and relaxed - a documentary style, which tells the full story of your wedding day. Included are arranged group pictures of family & friends and bride & groom and a number of unposed, natural shots of you and your guests. Group shots are organised carefully but swiftly with the minimum of fuss and disruption to your day. I will spend up to 6 hours at a wedding, including coverage of the bride getting ready and the speeches. Meeting and discussing your requirements beforehand will ensure you receive your desired collection of photos - whether in colour, black & white or a mixture of the two. *You can also choose to have all your wedding photos downloaded to a website gallery, where friends and family can order reprints in the comfort of their own home!*
